Hello

I'm a passionate Front-End Developer with over 9 years of experience in software development. My journey began in 2014, and since then, I have specialized in creating scalable and user-friendly web and mobile applications. My native language is Turkish, and I am proficient in English at an A2 level, continuously striving to improve.

Currently, I focus on projects using **React**, **Next.js**, and **React Native**, delivering innovative solutions to meet client needs. As a freelancer, I manage my own special projects while staying updated with the latest industry trends and technologies. My goal is to create impactful digital experiences through clean code, efficient designs, and a keen eye for detail.

I believe in lifelong learning, adapting to challenges, and collaborating with cross-functional teams to achieve meaningful results. Whether it's building applications from scratch or enhancing existing solutions, I'm always eager to contribute with dedication and creativity.

Objective

As a highly skilled and experienced Front-End Developer with over 9 years of expertise in modern web and mobile technologies, I aim to leverage my proficiency in React.js, Next.js, and Microsoft MVC to create scalable, user-focused applications. My objective is to contribute to dynamic projects where I can optimize performance, enhance user experiences, and drive impactful results for the organization. I am committed to continuous learning and collaboration to stay ahead of industry trends and deliver innovative solutions.

Experience

- December 2019 - Present
Freelance Full Stack Developer
Delivered 10+ client projects using Microsoft MVC 4.5 and C#, boosting application speed by 30%.
Increased client satisfaction by 20% through responsive and user-focused designs tailored to business requirements.
Collaborated with cross-functional teams to integrate React Native and Next.js for scalable mobile and web solutions.
- September 2014 - December 2019
Full Stack Developer @ IWT Digital Media Agency
Designed and developed robust web applications using Microsoft MVC and C#. Optimized database performance and ensured integrity using SQL Server.
Worked closely with team members to deliver end-to-end solutions on time.

Education

- September 2012 - June 2014 - Konya, Turkey
Selçuk University
Associate's Degree in Computer Programming
- September 2014 - Expected Completion: 2025
Anadolu University, Open Education Faculty (AÖF)
Bachelor's Degree in Business Administration
